- The Orange and Blue currently rank third overall in duel success percentage
- For a more detailed look at how Cincinnati ranks in these categories, Opta Statistics are below

FCC Unveil New Renderings

- In the span of eight days, FCC unveiled new renderings for both the West End Stadium (July 16) and the Mercy Health Training Center (July 24)
- West End Stadium is being designed by world-renowned architecture firm Populous and led by Jonathan Mallie, Senior Principal and Director of the New York office, West End Stadium features an ambitious interpretation of Cincinnati on the rise
- For more information on the Orange and Blue's soon-to-be home, visit <https://www.westendstadium.com/>
- The Mercy Health Training Center was designed by MSA Sport and is being built by Cincinnati office of Turner Construction
- The 34,000 square foot, multilevel MHTC building will house the entire FC Cincinnati first team, as well as a separate wing for the Academy ... additionally, there is a 3,000 sq. ft. maintenance facility on the property

West End Stadium to Come to Life After Zoning Approval

- Construction on West End Stadium, FC Cincinnati's future home, has formally started construction after the Cincinnati City Council unanimously approved a key zoning change on Thursday, Feb. 21
- The \$250+ million, privately funded stadium will seat approximately 26,000 fans and is expected to remain on schedule and open on time for its March 2021 target
- The formal groundbreaking ceremony - which MLS Commissioner Don Garber attended - was held on Dec. 19, 2018
- Among the design considerations are more than 50 suites (most in MLS not in an NFL stadium), 4,500+ premium seats among a variety of club spaces, and a safe-standing supporters section to hold more than 3,000 fans that will rise from field-level to the top of the stadium on one end

New Training Digs Also Under Construction

- In addition to West End Stadium, FCC are also constructing a \$30+ million, state-of-the-art training facility in Milford, Ohio - about 15 miles from downtown Cincinnati
- When completed this November, the Mercy Health Training Center will feature a 34,000 square foot facility on 24 acres just off I-275
- It has full-size, lighted playing fields - two natural grass and one artificial turf - plus a separate, dedicated goalkeepers area
- Inside, the Mercy Health Training Center will house the FCC first team and Academy, as well as the technical staff, soccer operations and communications staffs, as well as members of other FCC departments
- It will also include a full-time dining facility, team lounge, auditorium and media work space, production studio, strength and conditioning gym, medical areas, equipment studio and storage, plus locker rooms, staff rooms and meeting spaces - as well as a barber shop
- While the MHTC is under construction, FCC is currently training out of a custom-built, 8,000 square foot facility on the property that includes the locker room, team lounge, equipment suite, medical suite and offices for the coaches and Milford-based staff

Construction Costs Matter

- Between construction and land acquisition for West End Stadium, construction for the Mercy Health Training Center and upgrades to Nippert Stadium, FCC have undertaken almost \$450M in simultaneous construction projects this offseason
- Add to that the club's \$150M Expansion Fee and the club's ownership group has committed more than one-half billion dollars to the club in its first year of play
